

Coffey Information is a global company with a local presence

OUR COMPANY

COFFEY INFORMATION

Coffey Information is an industry-leading specialist in scientific testing solutions around the globe. We have been delivering services to the construction, environmental and mining industries for nearly 50 years.

Coffey Information is a stand-alone subsidiary of ASX-listed Coffey International Limited. With industry accredited laboratories located worldwide, we operate by providing a global capability with a local presence.

Coffey Information strives to work with clients to contribute to the economic, social and environmental wellbeing of societies by providing unique and valuable information to help solve challenging problems.

We aim to:

- develop integrated business solutions for clients by leveraging the services of the Coffey group
- produce efficient, professional, value-for-money solutions that assist clients to achieve results
- be at the forefront of technological advancement
- provide a safe working environment.

At Coffey Information, we conduct our business with integrity and are committed to industry best practice. Our mission is to provide high quality, reliable and timely results for our clients across the globe.

A PART OF A LEADING GLOBAL PROFESSIONAL SERVICES CONSULTANCY

Coffey International Limited is a specialist professional services consultancy with expertise in geosciences, international development, and project management. Operating for more than 50 years, we are well known in our markets for deep technical skills and market-leading solutions to complex tasks. Coffey is listed on the Australian Securities Exchange (ASX: COF).

Coffey's geosciences consultancy has worked on some of the world's most challenging projects. Our specialist technical knowledge and market-leading innovations have established Coffey as a leader in geotechnical, environmental and mining engineering, as well as materials testing and analysis.

Our international development consulting business is one of the most trusted and experienced around the world, working alongside governments and agencies to strengthen local communities.

We also have a project management business that works in partnership with clients through the project lifecycle, providing counsel and support with project management and advisory services.

At Coffey, all of our people are dedicated to sharing our clients' challenges - providing value by pushing the boundaries of technical excellence to achieve extraordinary outcomes.

GLOBAL REACH – LOCAL PRESENCE

Coffey Information is a global company with a local presence. This means that we provide you with an independent service, as well as access to the wider network of Coffey Information offices and other Coffey companies.

At Coffey Information, we aim to bring you the very best in specialised testing and analysis services, which are setting international best practice and standards. We continuously invest in technology and resources to ensure modern and advanced laboratories that deliver high quality outcomes for our clients.

Our alliances with partners enable us to get the job done when you need it - on time and on budget. We also have extensive operating networks which are continuing to grow, giving you access to our services on a local, national and global level.

Coffey Information is committed to the health and wellbeing of our people. We enforce stringent occupational health, safety and environmental practices in all our workplaces, and ensure that our people are trained in all aspects of the business.

Our business helps create cohesive communities through the building of better roads and safer public infrastructure. We are particularly committed to the regional communities in which we operate, whether this means providing jobs in regional centres, supporting important community projects or sponsoring local sporting teams.

THE COFFEY INFORMATION ADVANTAGE

For nearly 50 years, Coffey Information has conducted millions of tests around the globe.

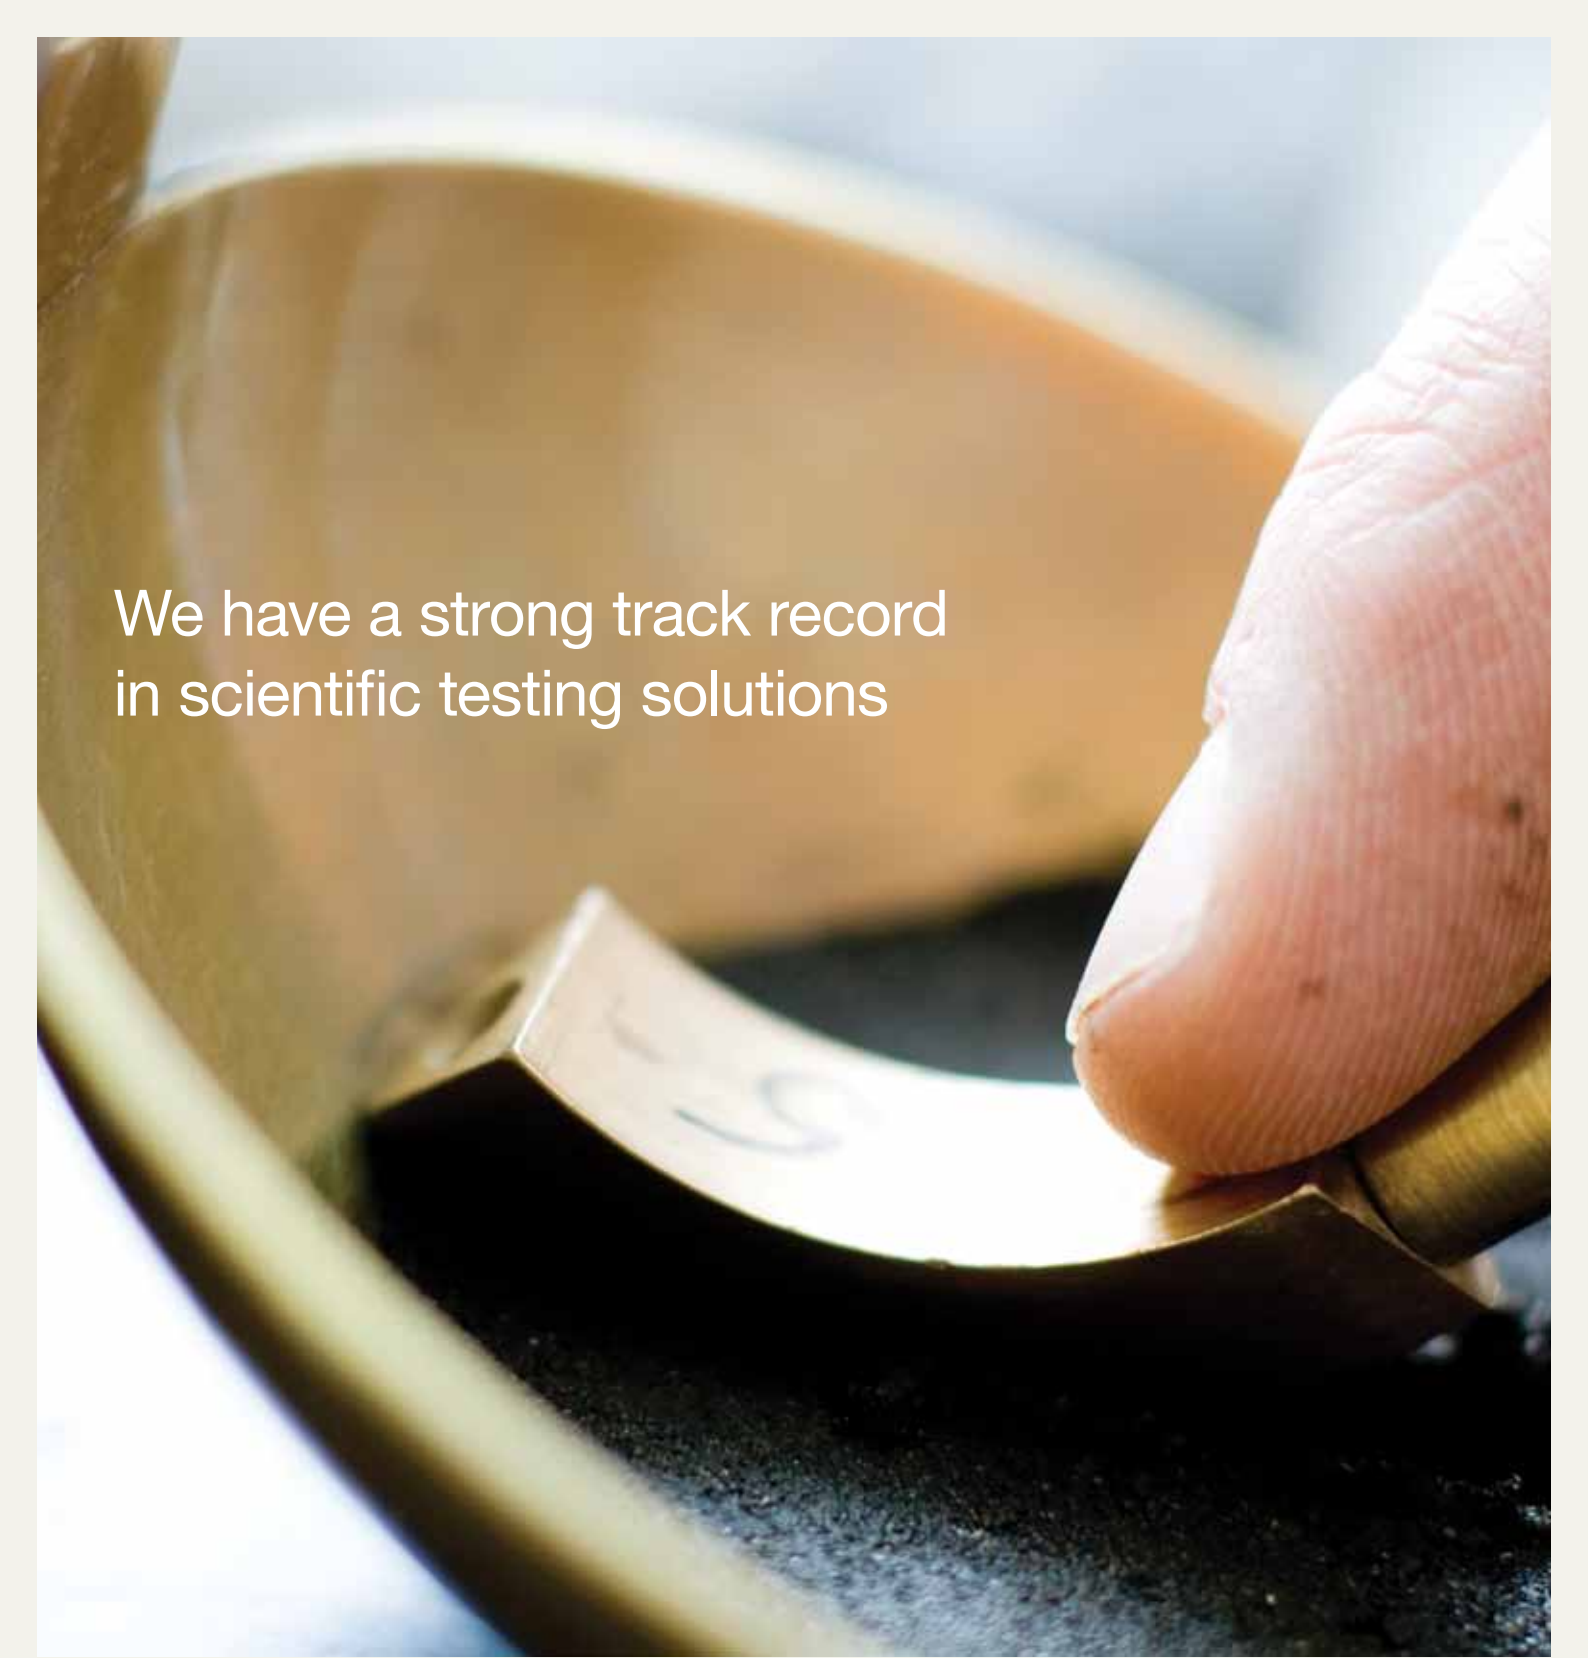

Today, clients choose us for our integrated solutions capability, as well as our ability to mobilise the necessary resources for major projects. This includes assembling a trained workforce anywhere, anytime, to meet our clients' needs.

In everything we do, Coffey Information aims to use our specialist knowledge to deliver extraordinary outcomes. We do this by:

- exceeding client expectations
- conducting our business with integrity
- advancing the technology and practices of our industry
- ensuring that we are accredited in the regions where we operate
- pursuing research and development through affiliations with universities and industry associations.

In 2007, Coffey Information installed an industry leading, centralised laboratory software system called QESTlab. The system enables us to deliver higher quality results, faster, as well as provide more detailed analysis of test results for our clients.

We have a strong track record
in scientific testing solutions

OUR SERVICES

Coffey Information has experience across the testing and analysis industry – from routine laboratory testing to providing clients with specialised and unique solutions to emerging industry challenges. Working internationally across the geotechnical, mining and environmental industries, Coffey Information (and other Coffey companies as required) provide the following services:

GEOTECHNICAL/MINING TESTING AND ANALYSIS

Soils

- Soil classification
- Pre-treatment
- Routine stress and strain measurements
- Specialised soils mechanics testing

Aggregate

- Size, shape and density analysis
- Strength and durability testing

Concrete

- Compressive strength
- Slump testing
- Cylinder casting and curing
- Mix testing

Pavement and Asphalt

- Pavement evaluation and maintenance
- Asphalt control and recycling review

Rocks

- Mechanical testing
- Dynamic testing
- Operational applications for rock mechanic properties including:
 - drilling
 - reservoir management
 - well completion
 - core based stress determinations
- Specialised hollow cylinder and tri-axial testing

Field (on-site) Testing

- Sampling of soils, aggregates, concretes and rocks
- Sampling of stockpiles to standards
- Sand replacement testing
- Nuclear density testing
- Asphalt density

ENVIRONMENTAL TESTING AND ANALYSIS

- Water analysis
- Microbiological analysis
- Soil and sediment analysis
- Workplace hazards
- Asbestos fibres
- Urine analysis
- Organic analysis
- Chemical, microbiological and fibre analysis
- Nutrients, metals and cyanide analysis
- Acid sulfate soils and acid mine drainage
- Groundwater monitoring
- Drinking water potability

SUPERVISION/INSPECTION/MONITORING

- Level 1-2 supervision
- Site assessments
- Field data collection and construction monitoring
- Electro-magnetic surveying
- Seismic traversing
- Environmental sampling
- Skid resistance

INSTRUMENTATION/MEASUREMENT

Instrumentation

- Design monitoring systems
- Site supervision for onsite installation
- Data Logging

Data Management and Telemetry

- Wired data transmission
- Systems interfacing
- Satellite, radio and mobile networks telemetry
- Remote access and reporting
- Database creation and management

Stress Measurement

- Hollow Inclusion Cell 3D analysis
- Interfels Borehole Slotter analysis
- Hydro Fracture testing
- Deformation Rate analysis

DRILLING

- Geotechnical site investigations
- Flight auger/mud drillings
- NMLC rock coring
- Drilling supervision
- Borehole logging
- Rock core logging
- CPT drilling and testing

OUR CLIENTS

Our specialist knowledge allows us to develop unique and strategic information solutions for clients

At Coffey Information, we work with our clients in a variety of ways to meet your business needs. This may include working as a direct contractor or by developing strategic alliances.

Coffey Information is highly experienced in strategic alliances, which aim to achieve extraordinary outcomes by having partners equally share project risks and successes. This benefits both the service providers and clients, ensuring high quality, cost-effective project outcomes.

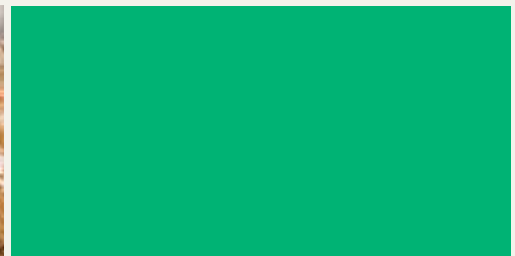

Please ask us about our various project alliance models.

OUR CLIENTS

Our clients range from some of the worlds largest corporations through to small regional engineering and construction companies. We are also a valued partner to many government departments and agencies across all levels of the public sector.

Some of our clients include:

- Abigroup
- Alcoa
- AngloGold Ashanti
- Australian Rail Track Corporation
- Bardavcol
- Barrick Gold Corporation
- Boulderstone Hornibrook
- BGC
- BHP Billiton
- Boral
- BP
- Chevron
- Connell Wagner
- Daracon Group
- Dempsey & Wood Civil Contractors
- Department for Transport, Energy and Infrastructure
- Department of Main Roads
- Ertech
- Fortescue Metals Group
- Hanson
- Hick Bros Civil
- Iluka Resources
- INPEX
- John Holland Group
- Leighton Holdings
- MacMahon Civil Contractors
- Newcrest
- Newmont
- Norilsk Nickel
- Parsons Brinkerhoff
- ReadyMix
- Rio Tinto
- Roads and Traffic Authority
- Rogers Civil
- Santos
- Shell
- St Barbara Mines
- Thiess

OUR INDUSTRY SECTORS AND PROJECTS

Our services are setting international best practice and standards

We service a large number of sectors and industries including government, commercial and residential building and construction, property, civil infrastructure, defence, marine, heavy industry and resources.

With experience on small regional projects to iconic international infrastructure and mining projects, Coffey Information has the expertise and experience to meet your individual requirements.
