CAPABILITY STATEMENT**

COFFEY INFORMATION NEW ZEALAND

Coffey Information is a specialist in scientific testing solutions around the globe. As Australasia's largest construction materials testing provider, we have been delivering services to the construction, environmental and mining industries for 50 years. With industry accredited laboratories located worldwide, we operate by providing a global capability with a local presence.

At Coffey Information (New Zealand) we have IANZ Accredited laboratories located in East Tamaki and Tauranga. Our management team has a wealth of knowledge and experience with collectively over 50 years within the industry. With experienced staff, including eight IANZ Approved Signatories and 20 Geotechnicians we are able to operate 24 / 7 to cater for our client's needs.

At Coffey Information we aim to:

- develop integrated business solutions for clients by leveraging the services of the Coffey group
- produce efficient, professional, value-for-money solutions that assist clients to achieve results
- be at the forefront of technological advancement
- provide a safe working environment.

Coffey Information is a stand-alone subsidiary of Coffey International Limited, one of the top 300 companies on the Australian Stock Exchange. In New Zealand, Coffey is represented by the specialist businesses of Coffey Geotechnics, Coffey Projects, Coffey Environments, Coffey Rail and Coffey Information.
